Trail vs. Saskatoon Quakers Next Round

Alberta Champions Bow to Flashy
Trail Team in Inter-Provincial
Playoff. Trail Goes Through
To-night for Saskatoon

In the Allan Cup play off, Trail, British Columbia champions, defeated Blairmore on Tuesday and Wednesday at Trail, the score of each game being 3-1. Trail will play the Saskatchewan champions at Saskatoon on March 15. Trail team will pass through here to-night on train 68, and Blairmore team will return with them.

Blairmore put up a worthy fight to win the honor of travelling east, and hockey supporters in the Pass join in hoping for success next year for the Alberta champions. Credit in full measure is due to Manager Walter Scott and his players for their season's record.

SCOUT NEWS

Come On Out!

The brunt of the work of re-organizing the Boy Scouts in Coleman and arranging whist drives to raise funds has been cheerfully undertaken by Assistant Scout Master Harold Turner. Generous assistance has been given by business men in donating prizes and by the public in purchasing tickets, while the Scouts have contributed the refreshments.

Last evening the third whist drive was held, whereby it is hoped there will be sufficient funds to purchase uniforms for the Scouts, of which there are fourteen, and the cost for each uniform will be \$8.50. The boys pay in a small amount each week to their troop fund, which is used to meet their current expenses.

K. of P. Convention

J. Griffiths, secretary of the local lodge, is a delegate to the annual convention being held in Lethbridge. The Pythian Sisters are also holding their convention under the direction of the grand chief, Mrs. Cora Clendenning.

Alex. Cornett Was Honored by Friends

Presentation as Token of Good-
will Made on His Departure
for Red Deer

A number of friends of Alex. Cornett gathered at the home of Geo. R. Neil on Saturday evening to hold a farewell party, prior to Mr. Cornett leaving for Red Deer, where it is probable he will decide to move. He has been with the International mine repair shops for several years, but slack work has caused him to consider making a move.

There were 16 of the "stag" party, and a presentation was made to him of a pipe and tobacco pouch, with a complimentary address. Cards were played, and songs were sung by G. Greenhalgh, recitations and readings by J. Devine, J. Naylor and an address by W. J. Burns, to which Mr. Cornett replied. Lunch was served by the host, asisted by C. Devine, and Mr. Naylor was the master of ceremonies. Present were A. Cornett, T. Bowen, T. Higginbotham, W. Brown, J. Devine, C. Devine, J. Naylor, I. Nielsen, J. Kapalka, B. McKay, T. Flynn, W. J. Burns, J. Plante, H. Antel, E. Haggan, J. Derbyshire, G. Neil, G. Greenhalgh.

At the boy Scouts whist drive last evening the prizes were won by Miss Mary Lyons, Mrs. Rippon and consolation by Mrs. A. F. Short. Mrs. Ed. Ledieu tied with Mrs. Rippon, the latter winning on cutting cards to decide. The gent's prizes were won by D. McLeellan, Mrs. Halliwell and Mrs. M. W. Cooke, the two ladies playing as gent's. Dancing followed the whist games.

Immediate Action Necessary for Subvention to Benefit Coal Industry

Asked for a statement as to the request of the bituminous and domestic coal operators of Alberta for a subvention of freight rates from Alberta to Manitoba and Saskatchewan, O. E. S. Whiteside, general manager of International Coal & Coke Co., Ltd., Coleman, one of the delegation who recently visited Ottawa, said:

"The Hon. Charles Stewart, minister of mines, has already replied to the coal operators delegation which presented a memorandum on March 3, giving the reasons why a subvention of freight rates was a necessity in connection with the Manitoba market.

"They are much encouraged by his assurance of support and the only difficulty now in the way is the time necessary for presentation to the rest of the Cabinet and their final disposition of the question.

"In view of the fact that many of the large contracts came up during the next few weeks and at last only the end of the present month, the operators are hopeful that consideration will not be long delayed."

Judging from this statement, it indicates that immediate action is required if a subvention is to be of benefit to the coal industry of Alberta at a time when contracts are being considered by heavy purchasers of coal.

Legion Discusses Purchase Building

Proposal to Secure Quarters for
Club Purposes and Community
Centre

A general meeting of the Canadian Legion was held on Sunday when a committee was appointed to secure information on various buildings that had been offered for sale to the Legion as club headquarters. Seven or eight offers had been made. A committee, consisting of H. T. Halliwell, J. Houghton and P. Smith, was appointed to secure particulars and purchase price, and their report will be placed before a general meeting as soon as completed.

A membership committee was also appointed including P. Smith, W. Graham and Robert Parry, who (Continued on Page Eight)

Work for Coleman Board of Trade

Support of Members and Business
Men Required in Efforts to
Have Park Established

An Edmonton despatch on Tuesday stated that an area around a lake in Crow's Nest Pass had been offered the government for development. Premier Brownlee said the ultimate aim of the government was to have parks situated at not more than 50 miles away from each other, so that all residents of the province could avail themselves of the benefits.

Mr. Whiteside, chairman of the Parks Committee of the Board of Trade, has been in charge of the correspondence concerning this, and it would appear that after efforts extending over several years, there is a likelihood of action being taken.

The lake has long been advocated as suitable for park purposes, and under capable supervision its natural attractions could be greatly enhanced by the addition of suitable buildings and necessary accommodation for visitors from a distance.

Spreading the News

The Dominion Press Clipping Agency, Toronto, performs an interesting service. It scans hundreds of newspapers and if there is an item or story pertaining to those who are on its mailing list, it clips it and forwards to the interested party. The latest batch received by The Journal shows that between Sept. and Dec. there appeared 38 excerpts in Alberta dailies from The Journal, and several in a number of weeklies. This is in dependent of the regular correspondence from Coleman which appears in the dailies, and handled through The Journal office. The more important happenings are relayed through the Calgary dailies to the Canadian Associated Press, whose service covers all Canadian dailies.

Coal Production Down in Dec.

The output for December in the Crow's Nest Pass Mines was 91,670 tons, as against 121,757 in December 1928, a difference of 30,187 tons.

Obituary

The death occurred on Monday of Filomena Rizzo, wife of Pietro Rizzo, residing on Main street. The deceased lady was 27 years of age, and came to Coleman from Italy six years ago. She was married here in 1924.

To mourn her death besides her husband, there is a daughter, five years old, and a brother, Savio Beneditto. Her parents reside in Italy.

The funeral was held on Wednesday afternoon, service being at the Holy Ghost church, and interment in the Roman Catholic cemetery.

Italian Consul Visited Coleman

Interesting Representative of Italian
Government Interviews
Former Citizens of Italy

Mr. Pietro Colbertaldo, Royal Italian Consular Agent, spent Monday and Tuesday in Coleman and Pass towns, and he was interviewed by many Italian people on various matters.

The Consular agent's office is at Edmonton, and there is a steady stream of business attended to there, as various items pertaining to affairs of former Italian citizens now living in Canada have to be administered through the consular office.

Mr. Colbertaldo in an interview with The Journal stated that if there are any matters requiring the attention of the Consular office, that they will be given prompt attention on notifying the Edmonton office.

The executive of the Board of Trade had proposed holding a luncheon meeting with Mr. Colbertaldo as their guest, but owing to various business matters requiring his time fully whilst here, he stated that he appreciated the courtesy expressed and asked that he be excused.

ST. ALBAN'S CHURCH, COLEMAN

Sunday, March 16—Holy Communion 11.15 a.m.
Choir practice at 7 p.m. on Friday, March 14.

Mrs. J. Rushton has been quite ill, and her friends hope for a speedy recovery.

Mrs. Jaminette, of Sylvan Lake, who has been the guest of Mrs. J. A. McLeod, left on Monday night for her home.

Western Delegation Returned From Ottawa

Hon. Chas. Stewart Discusses Re-
quest for Freight Rate Sub-
vention—Reply Received
by O.E.S. Whiteside

Mr. O. E. S. Whiteside returned on Monday from a two weeks visit to Ottawa, Montreal and Winnipeg. His visit to Ottawa was to interview the Hon. Chas. Stewart, minister of the interior, relative to the application by Alberta coal operators for a subvention of one fifth of a cent per ton mile on coal shipped from this province into Manitoba and Saskatchewan. The reason for the application is to enable Alberta to compete with American coal importations and to give increased employment to mine workers.

Arrangements for the delegation to meet the cabinet ministers were made by Senator W. A. Buchanan, of Lethbridge, and G. G. Coote, M. P. for Macleod riding. Though full discussion of the problem of the Alberta coal industry took place, no assurance was given that immediate action would be taken, but Mr. Whiteside stated that members of the delegation were informed that a reply to their requests would be forwarded in a few days.

The Department of the Interior has issued a new edition of a land map which shows at a glance the total number of quarter sections of Crown land still available in each township. The map also indicates Dominion Land Offices, existing railway facilities in each district, and provides the customary information regarding cities, towns and villages. A copy of this map is together with other material of interest to the prospective settler may be obtained free of charge on application to the Natural Resources Intelligence Service of the Department of the Interior at Ottawa.

Applications

for Caretaker of the Fire
Hall of the Town of Cole-
man, and to act as as-
sistant fire chief, will be re-
ceived by the undersigned on or before Monday, March 17. Apply at the town office for further particulars as to duties, etc.

Canada and War

Canadians unquestionably are deeply interested in the Five Power naval parity now in progress in London. They are really anxious that it should have a successful outcome, and that as a result there shall be not only further reduction in naval armaments, but a new and better understanding established between the great naval powers.

Canada, considering its size, geographical position, population and wealth, spends less on defence or preparation for war than any other country in the world. To all intents and purposes, Canada is and has been disarmed. If other nations maintained armies and navies proportionate to population and wealth reduced to the Canadian scale, the whole world could be said to be disarmed.

Yet Canada knows what war means. During the years 1914-1918, the people of this Dominion learned the bitter lesson of war's tragedies, and each succeeding year, since 1918, has only served to emphasize that lesson. Canada paid in the loss of its young manhood, in its army of wounded, many maimed and crippled for life or permanently undermined in health. Canada paid them, in paying now, and will continue to pay for many years to come, in dollars and cents for the huge cost of war and war's destruction.

Even so, it is doubtful if the average Canadian realizes what war, even preparation for war, actually means to this old world. As already stated, Canada's annual expenditure for war purposes—that is, aside from the burden imposed by the Great War for which our people were in no sense responsible, but participation in which was a duty forced upon us—is slight almost negligible, a very small percentage of our total annual expenditure as a nation. But this is not true of all other great nations, and most of the small and minor nations.

For example, the United States, removed from the dangers and complexities of European entanglements, and largely occupying a position of isolation, spends on its armament budget a larger sum annually than any other country in the world, although the percentage of its total income so expended is smaller than in other countries. And it is a startling fact that the amount so expended is increasing. In the four years before the Great War the average annual expenditure of the United States on armaments was \$460,000,000. Ten years later it had risen to \$879,000,000. If Canada followed the example of European nations, we, too, would be spending a crushing amount merely because our next door neighbor is doing so.

In 1913, before the war, Great Britain's armament expenditure was just under \$400,000,000. Last year it was \$575,000,000. Every one of the Great Powers, except Germany, which was compulsorily disarmed, is spending much more money on armaments than was spent before the Great War. And this despite the League of Nations, the Kellogg Peace Pact, and treaties galore pledging the nations not to engage in offensive warfare.

Great Britain spent \$50,000,000,000 on its part in the colossal tragedy of the Great War. It left Great Britain with a war debt of over \$35,000,000,000. Interest on that sum calls for \$17,720,000,000 a year. For debt purposes alone Great Britain has to raise by taxation \$5,000,000,000 a year, or \$3,000 every minute. It takes the whole time labor of 2,000,000 workers year in and year out to pay the annual cost of the debt burden. Added to this the \$75,000,000 spent annually on armaments, and \$280,000,000 for pensions and a total of \$2,800,000,000, or \$2,800 a minute has to be raised by taxation, or three-quarters of the whole amount of all Government expenditures. Is it any wonder there is business depression and unemployment in the British Isles?

If the London Naval Conference is successful in part only, namely, the matter of what are termed "Capital" ships, the saving to three countries alone, Great Britain, United States and Japan, will amount to \$1,000,000,000, or twice the total annual expenditure of the Government of Canada for all purposes. Or put it another way, if Manitoba could take into the treasury of the Province the sum saved when construction of but one 10,000 ton cruiser is cancelled, not only would all Manitoba's bills be paid for an entire year, but a surplus of \$3,000,000 would remain on hand.

Apart from all humanitarian, Christian reasons for disarmament, the above figures indicate the economic dollars-and-cents aspect of this great problem.

Canada paid, and is paying for war; let us pay and pay generously and ungrudgingly for peace by supporting the League of Nations with all our power. Every individual Canadian, man, woman and child, should be a peace advocate, an unqualified supporter of the League, and full Canadian participation in the League. They should unitedly pray for the success of the London conference.

How Lincoln Became Lawyer

Took Up Study After Defending Himself in Court Case

Abraham Lincoln's success in using the law in his own defence, was declared by Quin O'Brien, Chicago attorney, as the circumstance that decided Lincoln to become a lawyer.

O'Brien spoke at a Lincoln meeting. Recently found records were quoted by the speaker as revealing that Lincoln had been arrested for operating an unlicensed ferry boat on the Ohio River. Of necessity he interested himself in law to defend the charge and later became a law student in earnest.

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acid. But don't use crude bala. Use what your doctor would advise.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips Milk of Magnesia prescribed by physicians. It has remained standard with physicians for 50 years in every direction—any druggist.

May Use Pulverized Coal

B.C. Department of Mines Investigating Its Advantages

The British Columbia Department of Mines, fully aware of the difficulty which the coal industry has been facing, has been making investigations into the uses and advantages of pulverized coal, and has secured the assistance of the fuel research laboratory at Ottawa. In an address before the Vancouver Chamber of Mines, J. D. Galloway, provincial mineralogist, expressed the opinion that if pulverized coal were used properly there would be no excuse for the importation from California into British Columbia of a single barrel of fuel oil. British Columbia produced 2,313,900 tons of coal last year. Of this, about 140,000 tons were used in pulverized form in various industries. The Vancouver Province says it seems highly probable that if the uses and advantages of pulverized coal and the facilities for using it were brought more forcibly to the attention of the people of the province, a better day might be in store for one of British Columbia's important industries.

WAS RUN DOWN

AND VERY WEAK

Too Little Blood The Trouble and Tonic Treatment Restored Health

"I am writing to tell you," says Mrs. James A. Hauxen, Bridgewater, N.S., "the great health benefit I received through the use of Dr. Williams' Pink Pills. I had become so run down and very weak; so much so that I could only get about my household work. I suffered from headaches, and had very little desire for meals. The trouble affected my nerves, and as a result I did not sleep well at night; and would often awake with a choking sensation, and would find myself sitting up in bed. I was taking treatment, but it did not help me and I was losing courage, when I saw an advertisement of a case which seemed much like my own, which had been relieved by the use of Dr. Williams' Pink Pills. I decided to give this medicine a trial and got two boxes. Before these were all gone there was an improvement in my appetite, which seemed a hopeful sign. I procured a further supply of the pills and found a steady improvement in my health. I could eat well, sleep soundly at night, and my household work was no longer a task beyond my strength. From my own experience I would advise weak, run-down people to give Dr. Williams' Pink Pills a trial. I am feeling that what they have done for me, they will just as readily do for other similar cases."

If you will send your name and address to the Dr. Williams' Medicine Co., Brockville, Ont., you will receive a copy of "Building Up the Blood," will be mailed you prepaid. This little book contains many interesting facts about blood. You can get these pills through any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Radio Fans To Organize

Listeners-In To Form Organization For Self Protection

Leagues of radio fans are being formed in Canada, according to press reports, for the avowed purpose of insisting that the desires of "consumers" or listeners shall receive more consideration than is the case at present. Their protest is principally against the overwhelming volume of advertising that is a big part of the majority of radio programmes. These leagues or societies of radio fans are understood to favour the recommendations of the Radio Commission which recently suggested the nationalization of radio broadcasting in Canada, and the suggestion is to be considered by Parliament during the present session. The Commission advises that all private stations be taken over by the Government and recommends the establishment of seven national broadcasting stations.

Mother Graves' Worm Exterminator will drive worms from the system without injury to the child, because its action, while fully effective is mild.

World's Poultry Congress

At the World's Poultry Congress, to be held in Crystal Palace, London, England, next July, Canada will be a conspicuous participant. The Canadian exhibit of live birds will total about 1,000. The last World's Poultry Congress was held in Ottawa, in 1927.

Internal parasites in the shape of worms in the stomach and bowels of a child can sap their vitality and retard physical development. They keep the child in a constant state of unrest, and if not attended to, endanger life. The child can be spared much suffering and the mother much anxiety by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

"Scientists predict constipation may be made useful," says a headline. They've always seemed useful to us, holding up the corn.

Use Minard's in the Stable.

W. N. U. 1828

Social Hygiene Council To Meet

Next Annual Meeting To Be In Toronto, April 30 to May 3

The next annual meeting of the Canadian Social Hygiene Council will be held from April 30th to May 2nd, inclusive, in the Royal York Hotel, Toronto. Last year's, it will be remembered, was in Montreal, during the month of June, in conjunction with those of the Canadian Medical Association and the Canadian Public Health Association.

Since the programme is in process of preparation, it is not now possible to forecast it in detail. Certain arrangements have been made, however.

The reports and discussions will centre around three subjects: Health Insurance, Venereal Diseases, and Periodic Health Examination. It is expected that a good many national organizations will be represented at the meetings, since the Council is made up of representatives of existing national groups in addition to those of its own provincial and local branches. To date the following organizations have appointed representatives:

Canadian Association of Child Protection Officers.
Association of Canadian Clubs.
Canadian Federation of Women's Labor Leagues.
National Council of Women of Canada.

Royal Architectural Institute of Canada.
Canadian Medical Association.

United Farms of Canada.
National Council Young Men's Christian Association.

National Council of the Young Women's Christian Association.
Canadian Manufacturers Association.

Trades and Labor Congress of Canada.
Knights of Columbus.

University of Montreal.
Canadian National Society League.

Addresses on the various phases of health insurance will be given by Prof. McMillan, of the Minnesota Wage Board, Mr. James Simpson, vice-president of the Dominion Trades and Labor Congress, Mr. F. W. Macdonald, of the Canadian Manufacturers Association, and Dr. Harris McPhedran, the last three giving, respectively, the attitudes of Labor, the Manufacturer and the Medical Profession.

Much enlightenment is expected on the question of venereal disease, when Dr. C. P. Fenwick, of Toronto, and Dr. A. M. Davidson, of Winnipeg, will detail the results of surveys made in their respective cities. A representative from Quebec will tell of the Venereal Disease programme of the Province of Quebec. Dr. E. J. Trow, of syphilis in pregnancy, and Dr. C. H. Hair will make some observations on the control of these diseases.

Several papers from various parts of the Dominion and the United States will talk about Periodic Health Examination. A very complete programme of discussion is being arranged, in connection with this important procedure which has the endorsement of the medical profession, departments of health, and the life insurance companies as a most outstanding means of life and health conservation. Dr. J. W. Fraser, of Kitchener, who has much valuable experience with periodic examination of preschool age children, will give a paper on this subject.

Persian Balm—the perfect aid to beauty. Essential to real feminine distinction. Gives always the highest expression of beauty. Its use keeps the hands always soft and flawlessly white. Indispensable to the whole family. Imports added charm to the mother. Serves the father as a hair fixative and cooling shaving lotion, and protects the tender skin of the child. Persian Balm is the true toilet requisite.

Aerial Passage Over the Rockies

Air Routes Must Be Surveyed Before Coast To Coast Air Service Is Inaugurated

A dozen recorded aerial passages of the Rockies emphasize the need of a government survey of air routes in British Columbia. The Canadian transcontinental air mail is to go into operation this year, but it will only be "transcontinental" as an aspiration and a possibility. It will begin at Quebec, or perhaps in the summer months, on the Maritimes coast. It will make the head of the Great Lakes by daylight flying, cover the thousand miles of the prairies in a night, and end at Calgary. Until a proper survey has been made of air routes in British Columbia, we shall have no thirty-six-hour mail service from Vancouver to Montreal, and the cross-Canada air mail will still be "unfulfilled business." — Vancouver Province.

An educated man is one who knows whether the Chinese are fighting again or yet.

Minard's Will Kill Corns.

Castoria

of Baby has COLIC

A cry in the night may be the first warning that Baby has colic. No cause for alarm if Castoria is handy! This pure vegetable preparation brings quick comfort, and can never do the slightest harm. Always keep a bottle in the house. It is the safe and sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it suitable for the tiniest infant, and for frequent use. And a more liberal dose of Castoria is always better for growing children than some needlessly strong medicine meant only for adult use. Genuine Castoria always has Chas. H. Fletcher's signature on the wrapper. Prescribed by doctors!

Two Valuable Recipes

CREAM RICE PUDDING

4 tablespoons rice.
1 cup sugar.
1/2 teaspoon salt.
2 1/2 cups Borden's St. Charles Milk.
1 1/2 cups water.

Nutmeg.
Wash the rice thoroughly, then add with the sugar and salt the milk diluted with water. Pour into a buttered baking dish and add a sprinkling of nutmeg. Set the dish in a pan of hot water and bake three hours in a slow oven (300 degrees Fahrenheit), stirring several times the first hour to prevent the rice from settling to the bottom. Serve hot or cold.

CREAM OF TOMATO SOUP

2 1/2 cups canned or fresh cooked tomatoes.
1/2 small onion, sliced.
1 stalk celery, minced.
1 tablespoon minced parsley.
1/2 bay leaf.
2 whole cloves.
1 teaspoon salt.
1 teaspoon pepper.
1 teaspoon sugar.
1/2 teaspoon soda.
2 tablespoons butter.
2 tablespoons flour.
1 1/2 cups Borden's St. Charles Milk.
1 1/2 cups water.

Add seasoning to tomatoes and simmer fifteen minutes, strain. Melt butter in saucepan, stir in flour. Dilute milk with water, pour slowly into butter and flour, stirring until it thickens. Continue to cook five minutes. Just before serving, add soda to tomatoes, gradually add tomatoes to white sauce, stirring constantly, serve immediately.

Now the vegetable seasonings may be omitted, but their addition gives a smooth, well-blended flavor to the soup.

"Where did Brown get all his money?"

"In the hold-up business."

"Never!"

"Yes. He manufactures garters."

"Is your wife having any success in learning to drive the car?"

"Well the road is beginning to turn when she does."

Boys' Colt Competition

Great Interest Shown In Competition In Connection With Manitoba Winter Fair

The growth of the Boys' Colt Competition of the Manitoba Winter Fair gives indication that the affair will soon rank with the boys and girls fat cat competition as a leading feature of the exhibition. On account of the rapid strides made the Federal Department of Agriculture announces that an extra \$400 will be added to the \$500 already in effect for prizes.

For Rheumatic Pains.—The pains and aches of Sciatica and Rheumatism should be treated with Dr. Thomas' Electric Oil. The soothing and healing properties of this famous remedy have been demonstrated for fifty years. Use it also for inflammatory pains, cuts, scratches, bruises and sprains, either in human beings or the lower animals.

Cannot Halt Progress

Canada's programme may be slowed up by market crashes and wheat tie-ups, but it cannot be halted. The twentieth century is Canada's. Occasionally her people in their enthusiasm go a bit too far. Then they must slow down to catch their breath. That's what is happening at the present time.—Toronto Telegram.

Appelford Paper Products

HAMILTON - ONTARIO

Western Representatives:
HUNTER-MARTIN & CO., REGINA, SASK.

HAVE REACHED A SETTLEMENT ON RESOURCES

Ottawa.—When the representatives of the Saskatchewan and Dominion governments walked out of the conference room in the Houses of Parliament recently, the natural resources question—a question which has bedeviled political life in Canada for 50 years—had ceased to exist. Three months ago the natural resources questions affecting Manitoba and Alberta were solved.

Three weeks ago the question of settling British Columbia was finally disposed of. The Saskatchewan delegation took the train for Regina with a complete and permanent settlement agreed to.

The Saskatchewan resources question, although it has been decided, is not yet the subject of a signed agreement. But the agreement has been assented to verbally, by both parties, and only awaits the framing of a reference to the Supreme Court of Canada in order to be completed. When that has been achieved, the representatives of the two governments will sign it and the words natural resources in the sense of a provincial grievance will disappear from the lexicon of politicians.

When Premier Anderson left the conference room, he made the following statement:

"After conferences covering several hours, the government of Saskatchewan has received a satisfactory agreement from the Federal Government in relation to natural resources. The legal representatives of the province and Dominion will meet within the next 10 days and decide upon what questions will be placed before the Supreme Court and, if necessary, the Privy Council.

"The agreement will not be finally signed until these questions are agreed upon. The conferences were carried on in friendly fashion and the Saskatchewan delegation is leaving for the west with a feeling of satisfaction that the vexatious provincial question is now on the way to an ultimate solution."

Premier MacKenzie King, in discussing the conference, said:

"The four western provinces now have their resources under their difficulties adjusted. The whole country has had its problems aired and attention given to them.

"As for the Saskatchewan conference, Premier Anderson is well pleased with the decisions reached, and, for my part, I am gratified with the result."

The agreement arrived at with Saskatchewan may be outlined, unofficially, as follows:

1. Saskatchewan will receive the unalienated resources immediately.
2. The subsidy in lieu of resources will be continued, with statutory increases, in perpetuity.
3. There will be a reference to the Supreme Court of Canada to discover whether or not the Saskatchewan act of 1905 and the Dominion Lands act of 1872 are intro vires or within the power of the Dominion parliament to enact. (No doubt the decision of the Supreme Court will appeal to the Privy Council regarding, of which way the decision may go.)
4. A Royal Commission of three members will be appointed to discover what further amounts of money, if any, the province of Saskatchewan may be entitled to receive in order to be placed upon a footing of equality with the other provinces.

High Cost Of Burial

Federal and Undertaking Charges To Be Investigated By Alberta Government

Edmonton.—Funeral cost and undertaking charges in general will be investigated by the Alberta Government as a result of a motion adopted unanimously by the House and introduced by W. W. Frewey, Liberal, Edmonton, reading as follows:

"That in the opinion of this assembly the government should give early consideration to the whole subject of undertaking and particularly to the prevailing charges and costs thereof and it is necessary to introduce legislation regarding the same."

Makes Altitude Record

New York, N.Y.—Driving his twin motored Sikorsky to an apparent altitude of 19,500 feet, Capt. Boris Sergievsky, late of the Imperial Russian Air Corps, brought back to his adopted country the altitude record for seaplanes carrying a useful load of 3,000 kilograms (4,400 lbs.). The old record, held by France, was 15,837 feet.

Mounties Find Body Of German Scientist

Mystery Surrounding Disappearance Of Dr. Kurt Faber Is Solved

Edmonton.—Believed to have fallen victim to a northland blizzard and his body torn and disfigured by wolves, the remains of Dr. Kurt Faber, noted German journalist and scientist, of Berlin, was found Saturday, March 1, by a Royal Canadian Mounted Police patrol, 15 miles above Lower Hay River post in the Northwest Territories, according to information reaching here.

Only the most meagre details were contained in a brief wire received at R.C.M.P. headquarters, which told of the finding of the body of the missing northern traveller, who left Edmonton in September of last year, intending to proceed from Peace River to Fort Vermilion, down Hay River to the lower post on Great Slave Lake and then continuing to Fort Resolution and Fort Smith to Fort McMurray. The greater part of the journey was to have been made on foot.

Enquiries have been broadcast throughout the north for any information as to Faber's whereabouts since last December at which time Dr. K. Martin, German consul of Winnipeg, had been asked to notify him of the death of his mother in Berlin. Since January both Alberta Provincial and Royal Canadian Mounted Police patrols have been on the lookout for the body.

Dr. Faber was a free lance correspondent for the well known Scherl syndicate of German newspapers and had travelled in many parts of the globe in his profession.

Air Mail Benefits Coast

Eastern Cities Are Brought Two Days Closer Through Service

Vancouver, B.C.—Vancouver, once an outpost and even yet a little isolated from the East by the height of mountains, was brought 24 hours closer to the prairie, and 48 hours closer to Atlantic cities, with arrival of the first all-Canadian air mail from Winnipeg.

Several thousand letters, posted in Winnipeg, Monday night, were carried as far as Calgary by aeroplane, and arrived here by train at 9:30 o'clock on Wednesday. They were being delivered to city residents an hour and a half later.

With this new service, a whole day is cut from the communication time to prairie cities lying east of Moose Jaw, and whole days to Hamilton, Toronto, Halifax and various nearby United States and Canadian cities.

Equal Franchise Bill Rejected

Quebec Legislative Assembly Opposed To Votes For Women

Quebec.—By a vote of 44 to 24 the legislative assembly defeated the measure introduced by Irene Vauclair, Liberal, St. James, to give women the right to vote in provincial elections.

While the vote was adverse to the feminine cause, adherents were gained, and in speeches made by Hon. A. R. McMaster, provincial secretary, it was laid down with emphasis that sooner or later the cause of women would win. The vote was not a party one, the cabinet splitting. Premier Taschereau voted against the bill.

Fourteen Killed By Landslide

Rock Crashes Down Cliff On Gay Carnival Crowd

Funchal, Madeira.—Sweeping down from a high rock hanging over the sea, a great landslide killed at least 14 persons, including several children. Directly underneath the cliff a carnival was in progress.

Scores of children were playing on the beach when the tons of rock slid down the cliff with a terrific roar and crashed upon the beach in the sea. The scene of gaiety quickly gave place to cries of mothers, who fainted as the bodies were brought out of the earth and rocks.

Will Resume Hunt

London, England.—Prince of Wales has recovered so rapidly from the sub-tropical malaria, that he will resume his hunting immediately. A despatch to The Daily Mail from Nairobi, Kenya colony, said he probably would go to Elbege, Uganda, on Lake Victoria, and use a lake steamer as a base for his expedition. No more bulletins on the prince's condition will be issued at Nairobi.

Death Of Viscount Gladstone

London, England.—The Rt. Hon. Viscount Herbert John Gladstone, youngest son of William E. Gladstone, of Victoria era fame, died from an illness which began with an attack of bronchitis in January. He was in his 76th year.

Prison Keeper Killed

Official Of Auburn Prison Stabbed To Death By Inmate

Auburn, N.Y.—Edward L. Beckwith, prison principal keeper, was stabbed to death in the mess hall of the institution by Anthony Moritello, an inmate, and became the third in succession in that office to lose his life at the hands of a convict.

The news of the fatal stabbing came at the height of the trial of Max Becker, gunman and gangster of Brooklyn, and a convict, charged with the murder of the man Beckwith succeeded—George A. Durnford, Supreme Court Justice Benjamin B. Cunningham immediately recessed court.

Durnford was killed in the second prison at Auburn within five months in 1923, that of December 11. About two years ago James B. Burman, whose place Durnford took, was cut down by a stabber. The stabber was seized.

Beckwith was stabbed near the heart. Troopers said there was excitement but no disorder in the hall. Many of the convicts jumped to their feet to see what was happening, but set down immediately at order from their guards.

Beckwith was born in Canada on November 14, 1874, but the city of his birth was not known at the prison. His wife, critically ill at her home here, was informed that her husband had been taken ill.

NEW HOPE FOR THE CAUSE OF DISARMAMENT

London, England.—New hope for the cause of disarmament at a time when criticisms of the London naval conference are growing because of delays, was contained in a statement issued by Colonel Henry L. Stimson.

The informal statement by the American delegation declared that not only naval limitation but a reduction of at least 220,000 tons in the United States fleet, and an even greater cut in the British fleet could be achieved at the London conference.

The statement, issued in response to many appeals from the United States as to what the conference is doing follows:

"There seems to be an impression that the work of the American delegation at this conference is likely to result in an increase instead of a reduction in tonnage of the navies of the world.

"The surest way to answer that is to give such results as seem to be within reach up to date. A pace which in its essentials appears to be acceptable to America and Great Britain provides for net reduction in tonnage of the American fleet in capital ships, cruisers, destroyers and submarines—built, building or appropriated for—of over 200,000 tons and an even larger reduction of the part of the British fleet.

"If vessels authorized but not commenced were included in existing fleets, the amount of reduction would be much greater. Of course, these reductions are contingent upon some reduction being made in the fleets of other powers."

The Stimson statement came unexpectedly at the close of a day of meetings and conferences from which came only the same reports of uncertain progress that have featured proceedings since the French political crisis arose.

GENTLEMAN URBAN

Major Drew Thompson, who is gentleman under the black rod, a rank in the Federal House of Parliament, at Ottawa, corresponding to sergeant-at-arms in the provincial legislature.

Promise Highway To Saskatchewan Border

Road From The Pas Is, However, Subject To Conditions

The Pas, Man.—Citizens of The Pas, have been definitely promised a highway from here to the Manitoba-Saskatchewan border if the Saskatchewan Government would build a road to connect with the proposed highway from Hudson Bay Junction, north of Prince Albert, Sask. Premier John Bracken, of Manitoba, told a meeting of the citizens that a road from The Pas to the border would be built under this stipulation.

The Premier said his government was now engaged in completing its program of main trunk road extensions, and nothing would be added until that program was completed. He added, however, that in the next road program the road from The Pas to the Saskatchewan border would be the first construction undertaken.

Premier Bracken indicated that the Manitoba Legislature would shortly pass a resolution urging construction of the Mafeking railway cutoff. He hoped this would receive favorable consideration from the Canadian National Railways.

In concluding the Premier intimated that the support of his government would be extended to the Imperial government if it displayed interest in use-reclamation of the Carrot River triangle as an area for settlement of British agriculturists.

Ex-Service Men Represented

Eleven War Veterans On Committee Probing Soldiers' Problems

Ottawa, Ont.—In the composition of the special parliamentary committee on pensions and returned soldiers' problems, the prime minister has carried out a promise to have that body so constituted that ex-service men of all parties would have adequate representation. Of the 19 members of the committee, 11 are war veterans, of whom six are Conservatives and five are Liberals, and of the remainder, several had sons who were overseas.

Air Mail Popular

Ottawa.—Total of 430,635 pounds of mail was carried over Canada's 20 air mail routes during 1927 at a cost to the country of \$474,071. Heaviest route was between Narrow Lake and Sioux Lookout, Ont., where 83,406 pounds were carried.

NEW RED CROSS HOSPITAL AT EDMONTON

For the second time in a few months we are able to print pictures of a new Junior Red Cross Crippled Children's Hospital in Alberta. Above is shown the exterior and one of the wards in the new hospital at Edmonton, opened in January. It has a capacity of 36 beds.

Immigration Policy Changes

Federal Deputy Minister To Interview Provincial Governments
Winnipeg, Man.—Changes in the immigration policy of Canada decided upon by the Dominion cabinet, were laid before Hon. Albert Prefontaine, Minister of Agriculture, and Hon. R. A. Hoey, Minister of Education and acting premier, by W. J. Egan, Federal Deputy Minister of Immigration.

Following the conference the two Manitoba officials made a formal statement in which they declared that "they are glad to advise that the general policy laid down in connection with provincial co-operation is, in their opinion, workable, but they are not prepared to discuss details until they have a further conference towards the end of the month."

Mr. Egan said that he had nothing to say about the Dominion government plans. He would interview every provincial government from coast to coast, he declared, before any official announcement would be made.

Questioned about the term "general policy," Mr. Prefontaine replied this meant the plans outlined by the Federal Government. The Minister of Immigration, he said, had made tentative arrangements which would be subject to change.

Brydges Wins Dog Derby

Finished Race Twelve Minutes Ahead Of St. Godard

The Pas, Man.—Battling obstacles which for the past few years have thwarted him in his efforts to win major dog races, Earl Brydges, 22-year-old Northern Manitoba musher, has captured his first 200-mile The Pas dog derby.

Emil St. Godard, the champion and favorite, finished twelve minutes behind Brydges. Brydges crossed the finish line at the north end of the town here at 12:19 o'clock to the cheers of hundreds of spectators.

He was carrying one dog of his nine dog team, on the sleigh. Emil's team, visibly tired, finished at 12:31 o'clock, he was carrying three dogs on his sled, but Toby, the famous leader, was still in the key position at the last.

In capturing the derby Brydges wins the first prize of \$1,200 cash as well as the Grant Rice-Walter Goynne trophy.

TARDIEU CABINET EMERGES WITH GOOD MAJORITY

Paris.—Andre Tardieu's second cabinet ran the gauntlet of the Chamber of Deputies and, although roundly thrumped by the parties of the Left, it emerged with a favorable majority of 33. The rectified ballot was announced as 316 to 293.

The appearance of the second Tardieu cabinet before the chamber with its ministerial declaration was the signal for one of the bitterest parliamentary battles the chamber has ever witnessed, the sessions being suspended at one point.

The premier's declaration was interrupted by a tumult from the Socialist and Radical benches. The opposition, sneering under its failure to regain power with the Chautemps cabinet, taunted the deputies on the left who had accepted portfolios in the new ministry, and drowned the premier's voice.

Tardieu merely smiled at the demonstration and finished reading his declaration.

The winning margin of confidence was almost twice as great as political forecasters had been ready to grant the cabinet in advance of the voting. Most of them agreed that a margin of 30 votes would be a sign of strength for Tardieu, and as the bitter debate on the ministerial declaration of policy progressed, some of the prognosticators began to believe that the cabinet would be lucky to win at all.

As a consequence the government will go back to the London naval conference and will face the chamber on the question of ratifying the Young plan, revising taxes and passing a budget with enhanced prestige. The new naval delegation consisted of Premier Tardieu, Aristide Briand, foreign minister, J. L. Dumesnil, minister of marine, Francois Pietri, minister of colonies, Ambassador De Fleuriau and Senator Gustave De Kerpeuze. Of these, Tardieu, Briand, Pietri and De Fleuriau were members of the original delegation.

The naval conference has been proceeding without the French officially represented, but its progress has necessarily been slow, and the reappearance of the French will be the signal for resuming the negotiations at full speed.

BRITISH NAVAL ESTIMATES ARE PARED DOWN

London.—British naval estimates for 1930, made public recently, show a net total of £51,735,000 against £55,865,000 for 1929, or a reduction of £4,125,000.

Rt. Hon. A. V. Alexander, First Lord of the Admiralty, in a statement accompanying the estimates said the substantial decrease was due principally to reductions which the government felt justified in making in the shipbuilding program of 1928 and 1929, in accordance with a policy already stated in Parliament—that is, trimming of naval building to meet decreased needs produced by the Briand-Kellogg pact and other peace instruments.

He summarized the reductions as follows: Five vessels of the 1928 program have been cancelled, namely, two cruisers of the 10,000 ton type with 8-inch guns, two submarines and one submarine depot ship.

Twelve vessels of the program of 1929 have been cancelled, namely, two cruisers, four torpedo-boat destroyers, three submarines, two sloops and one net-layer and target-towing vessel. One of the cruisers cancelled is of the 10,000-ton type with 8-inch guns.

He said that in addition decision whether the three remaining submarines of the 1929 program are to be proceeded with has been deferred until after the London naval conference.

Mr. Alexander claimed that the effect of changes in the full program for the preceding ten years is "to reduce expenditure of new construction in these estimates by over £4,000,001."

With regard to future ship building, he said the government had decided not to formulate any proposals until the results of the naval conference had become known and had been fully considered. "No provision," he said, "therefore is included in these estimates for commencing any further new construction in 1930."

Inventors Not Protected

No Reward For The Agricultural Inventor, Says World Wheat Champion

Saskatoon.—Pointing out that there was no reward for the agricultural inventor, that the country could not patent his invention, Major G. L. Strange of Fenn, Alberta, world's wheat champion in 1923, in an interview here, gave it as his firm opinion "that the development of new sorts, kinds and varieties in agriculture and horticulture is decidedly being held back because of this lack of protection to the agricultural inventor."

"Only those are attempting this fine work," he said, "who are fortunate enough to possess the unusual combination of spare capital, spare time and a fervent desire to serve. This combination is, to say the least, possessed by but few individuals."

Major Strange is past president of the Canadian Seed Growers' Association.

Breaks International Law

Peking, China.—Contrary to international law, Germany is reported to have shipped large quantities of poison gas to China for use by forces of President Chiang Kai-Shek. Chinese Chamber of Commerce has protested to the German consul-general at Shanghai.

Will Help Canada's Trade

Tokyo.—Before leaving for Canada on a six months furlough, A. Brostot, Oriental traffic manager of the Canadian National Railways, expressed the opinion that recent strikes made "the case for China for use by forces of President Chiang Kai-Shek. Chinese Chamber of Commerce has protested to the German consul-general at Shanghai."

Morphine Seized At New York

New York, N.Y.—Morphine valued at about \$500,000 was seized on pier 57, North River, leased by the French line, in two large trunks apparently owned by a first-class passenger on the "Le de France," who had left the vessel a few minutes before it was learned.

Report Is Denied

Ottawa.—Reports that a large number of Menonites had been sent to China for use by forces of President Chiang Kai-Shek, Chinese Chamber of Commerce has protested to the German consul-general at Shanghai.

Doukhobors Released

New Westminster, B.C.—One hundred Doukhobor prisoners, men and women released from Onkalla jail following completion of six-month sentence. The prisoners were brought to the attention of the House of Commons by Hon. R. J. Manion, (Cons., Fort William) and denied by Hon. Charles Stewart, acting minister of Immigration.

NOTES AND COMMENTS

Life in its manifold phases is an interesting study. Each individual has a different mental attitude towards it. Some regard it as something to be endured, and at times would welcome the end of everything. Others have their spasmodic periods of optimism, when all the world appears gay, and then they have alternate periods of pessimism and the "blues." But happiest of all is he who takes the view that each day has its duties to be performed, and that by making the best of the time, wasting as little as possible, and setting apart a fair proportion for leisure, a fair share of happiness may be obtained.

Though contentment is one of the principal aids to happiness and health, yet one must not sink into the attitude that all effort for improvement must cease. There is contentment that is the reward of energy well expended and result achieved; but to rest on one's record would mean stagnation. The law of life is constant change, and the individual to maintain happiness and contentment must be ever on the alert to widen his range of vision and adapt himself to new conditions.

The fundamental principles of life remain the same; history proves it. The means whereby a living is obtained change. Though some may think that the survival of the fittest is rather a brutal way of viewing life, yet there is a great deal more truth than fiction in the view. At the same time there must always be retained in the human heart a desire and willingness to extend the helping hand to those less fortunate, for there is no gainsaying the fact that as we reap, so shall we sow. "Those who live by the sword shall perish by the sword" is as true today as it was centuries ago, and by the same token there who do not "play the game" invariably receive their deserts.

A frequent self-analysis and heart-searching on the part of each person would result in mutual benefit.

The Crows Nest Pass has reason to be proud of its hockey players. Despite difficulties in financing teams, club executives of the Pass towns have bravely held their teams together and Coleman and Blairmore attained the distinction of winning the right to contest the championship play-offs in their respective classes. Coleman boys made a brave battle for the intermediate championship at Medicine Hat, with a weakened team, having no subs in their final game, and Blairmore with its smooth working team, developed through several years of splendid effort, attained the pinnacle of provincial hockey in winning the senior amateur championship.

The effect the senior teams with their successes, have on the junior players is worthy of notice. Hockey is essentially a Canadian national sport. It is a game that excites the admiration of the world, and it is in Canada that the finest players are developed. The star players in United States league teams are recruited or purchased from Canadian clubs, which cannot be avoided; for the U. S. cities can draw hundreds of thousands of dollars in gate admissions whereas in Saskatchewan and Alberta cities 5,000 people is a record crowd. Madison Square Garden games will draw around 15,000 people with admission prices starting as high as \$12. Under these conditions Canadian clubs will be the recruiting fields for wealthier clubs to the south.

But it has this feature, that it encourages Canadian amateur players to put forth every effort to excel at a game which requires speed, stamina and brains. And it is with justifiable pride that Crows Nest Pass teams see today star players on American professional teams who a few years ago starred in our local games as amateur players.

Western members of the Federal cabinet have not shown a very favorable or ready attitude up till the present to take up the cause of the Alberta coal industry. Thousands of miners in this province and their families, besides tradesmen and business men dependent on the coal industry have suffered a strenuous year, with no immediate prospect of improvement. Manitoba continues to import large quantities of American coal while western miners are enduring want and privation.

If political action is necessary to secure relief, then it is time that preparations were made by all who are dependent on the coal industry to organize such action. When the vital interests of any group of manufacturers is endangered, they very soon resort to political influence to secure relief. The present condition affecting the coal industry demonstrates that a stiff fight has to be carried on and the assistance of Alberta representatives in parliament must be secured to the fullest extent. It is an instance of our vital interests being cut only politics, and this attitude is forced on us from necessity.

Here and There

(487)
A revelation of the wide range and high quality of manufactured products centering in the twin cities of Fort William and Port Arthur was commented on by visitors to the "Home Industry Exhibition," held at the former city recently. The Exhibit was open only to bona fide manufacturers of the two cities, and one hundred entrants had displays in which there was practically no duplication of products.

Forty years ago not a tree could be seen growing on expansive stretches of the virgin prairies in western Canada. 70-day trees are plentiful and there is hardly an established farm house but has its shelter belt or a grove of poplars, maples or some other variety of trees. Recent reports of inspectors of Canadian Government Forestry Service show that there are 7,600 farms thus provided and to date over 100 million trees have been distributed over the prairies, with many millions more bought from nurseries and planted on farms.

Alberta led the western provinces in the number of successful farm placements made in 1929 by the Canada Colonization Association when a total of 427 families were settled on 50,893 acres, said W. B. Dick, superintendent of land settlement for the province, at a meeting in Calgary recently.

The first of the Canadian Pacific Railway broadcasts took place February 21 over CKAC from Montreal and CKGW from Toronto, and will be repeated every Friday thereafter. These stations were linked over Canadian Pacific telegraphs which allow the use of technical improvements brought into use for the first time. Running from 10 to 11 on the nights of broadcasting the concerts will be made up of light symphony orchestral pieces and renderings of light and ballad opera music. The series will be built up to the slogan of "Cheerful and Good" and the orchestra will be under the leadership of Rex Battle, a conductor whose brilliant work has won wide popularity. Such variety music and French-Canadian and other folk songs will also be featured.

Appointment of L. C. McOut, one of the Dominion's leading agriculturists, as general agricultural agent of the Canadian Pacific Railway, announced recently, is further evidence of the railway's interest in the development of Canada. Mr. McOut has had 15 years' experience in agricultural and livestock affairs and enjoys the distinction of having represented Canada on an Imperial committee to study the meat supply of the British Empire.

Shriners making the Royal York Hotel, Toronto, their Mecca next June for their Imperial Council sessions, will find a city ready built and equipped for 8,000 people at their service. The Canadian Pacific Railway are now building "The City" composed of railway sleeping cars and annexes to take the place of administration and service buildings. The new city will closely adjoin the Exhibition grounds where the convention is to be held. It will be divided by "The Nile" and its full length will be adorned with a motor road to be known as "Rameses Drive." Streets numbered 1st, 2nd, 3rd, etc., will radiate from "The Nile."

Miss Doris Parkes, of Vancouver, becomes "Her Majesty" of the 1931 Banff annual winter sports carnival following her election as Queen at the recently concluded gathering at the famous mountain resort. She won against rivals from Calgary and Australia and was crowned amid colorful pageantry in the closing hours of the carnival.

"Not how much land settlement work, but how good" was enunciated as the policy of the Canada Colonization Association by W. M. Neal, general manager of western lines, Canadian Pacific Railway, at the annual dinner of officials of the organization held at Calgary recently. Mr. Neal said that during the past five years the association had settled 4270 families on 844,248 acres at a purchase price in excess of \$85,000,000.

The largest terminal grain elevator at any port on the seven seas has recently been put into operation at Vancouver by the Alberta Wheat Pool. It has a capacity of 6,150,000 bushels and is known as Vancouver Pool Terminal No. 1. During the crop year ended July 21, 1929, Vancouver shipped 56,135,218 bushels of grain as compared with 79,714,512 and 34,415,653 in the two previous years.

More than \$50,000,000 will be expended on new equipment, new branch line construction and improvement to existing equipment and rounded by the Canadian Pacific Railway during 1930, according to an announcement made recently by E. W. Bentley, chairman and president of the company. Of this huge sum, \$14,000,000 will be expended in new equipment and construction and improvement of existing equipment; \$2,000,000 in telegraphs; Canadian Pacific hotels from \$1,000,000 to \$2,000,000; \$2,500,000 will be expended on new passenger coaches; \$2,500,000 on new steamships, now in hand, and on immigration work.

Here and There

(488) Smashing all known records for the 120 miles of heavy going that characterized the International Dog Bird Derby run at Quebec recently, Emil St. Godard galloped in to his fourth victory in that event when he led Leonhard Seppala to the line by a margin of five minutes in eleven hours, one minute and 27 seconds for the whole distance. St. Godard won \$1,000 cash and a gold cup. There were twelve contestants in the race.

The western branch lines construction programme of the Canadian Pacific Railway for 1930, announced at headquarters of the company recently, will involve an expenditure of \$11,000,000, said D. C. Coleman, western vice-president, interviewed at Winnipeg. In addition to this sum, ten million dollars will be spent on improvements designed to increase the capacity and efficiency of lines operated in the west.

Purchase of the Arizona Eastern Railway by the Canadian Pacific Railway is announced by E. W. Beatty, chairman and president of the latter company. The property runs between Little Current and Sudbury and its purchase is subject to approval of the board of directors of the Canadian Pacific and to ratification by shareholders at the annual meeting to be held May 7 next.

For several years Canada has led the world in aerial surveying and last year consolidated that leadership by applying, for the first time in any country, aerial methods to geologic reconnaissance and transportation. Around 70,000 square miles were covered by aerial photographs last year by the Royal Canadian Air Force and the Canadian Government Department of the Interior.

Canadian investments abroad at the end of 1928 totalled \$1,579,074,000, according to a recent official estimate. Of this amount \$874,626,000 is invested in the United States; \$131,515,000 in Great Britain; and \$572,533,000 in other countries.

Available horsepower in Canada is 20,197,000 horse power under conditions of ordinary minimum flow and 21,110,000 horse power under conditions of ordinary six months flow. Only about 6,000,000 horse power has been harnessed.

The first Canadian woman Senator, Hon. Cairine McKay Wilson, is the mother of eight children, ranging in age from 20 to 4. Prior to the appointment there was doubt as to whether women could legally be appointed to the Senate and the question was carried to the Privy Council which held that women were persons and therefore entitled to sit.

About 12 1/2 million meals a year are served to travellers by the Canadian Pacific—that is to say, 37,000 meals every day or 259,000 every week. This gigantic total is made up of about 4,200,000 in dining cars and station restaurants; 4,150,000 on Atlantic or Pacific steamships; 1,350,000 on inland and coastal steamers; and 2,500,000 in the company's hotels and bungalow camps.

Here and There

(482) The bull sale at Kamloops this year is scheduled for March 19 and 20. The show is becoming an important event in western livestock records. A big list of Alberta entries has been received.

The Maritime Livestock Marketing Board have extended their purchasing plan so that now farmers' clubs and associations may purchase feed at a considerably lower price than formerly. Several carloads of feed have already been ordered.

The directors of the Canadian Pacific Railway have decided to apply to Parliament for an amendment to the company's charter permitting it to change the par value of shares of its ordinary stock from \$100 to \$25 per share with the exchange of one share of the old stock for four shares of the new. This action has been dictated by a desire to place the company's shares within the reach of investors of moderate means and thus increase the number of its shareholders, particularly in Canada.

MacLean's Magazine

Twice a month—24 issues a year.

\$2.00 for 1 year
\$5.00 for 3 years

In 1927-8 the editorial plans for MacLean's included the printing of five booklength novels, four novelettes, 108 short stories, 218 major articles of Canadian National interest.

In short, approximately, 355 main features.

Approximately 308, that is to say, 92 per cent, of the editorial contents of MacLean's Magazine it is estimated will be contributed by Canadians.

This is a big buy for only \$2.00 for one year.

The Knights of Pythias, Delmonte Chapter, gave a grand novelty dance on St. Patrick's night, Monday, March 17th. See posters.

The junior hockey team made a presentation to Alex Connell on Saturday consisting of a very fine smoking set, in appreciation of his work and interest in behalf of the team.

The Welsh Imperial Songers are billed to appear in Blairmore Opera House on March 19 under the auspices of the Knights of Pythias. The proceeds are in aid of the Woods Home, Calgary.

Lou C. ("Buck") Grant left last week for Cranbrook, to receive Chiropractic treatment for injuries of three years standing. In 1927 he was injured in a car smash at North Battleford, where he was playing on the baseball team, and he has been incapacitated since. In order to defray the expense of his treatment, D. Gillespie, secretary of the Miners Union made a collection, which was greatly appreciated by Mrs. Grant. It is possible that Mr. Grant will have to remain in Cranbrook for some weeks.

General regret is expressed at the tragic death of the famous Canadian aviator, Col. Barker. V. C., whose brilliant exploits during the war were admired the world over. He leaves a wife and 7-year-old daughter to mourn the ending of a spectacular career. Though he courted death scores of times in aerial combat thousands of feet in the air, during the war, and often his plane was raked with machine gun fire, fate decreed that his finish was to come in the piping times of peace when there was not a thought of death in the air. His machine crashed at Rockcliffe, Ottawa, just after he had taken off, from an altitude of 350 feet.

NO MORE STOMACH TROUBLE

"I was stomach trouble. Can get anything," writes Mrs. K. White. "Thousands are suffering from indigestion, gas, flatulence, constipation, acid stomach, heartburn, nervousness, headache, dizziness, and other ailments. Get 'Fruitee' today. It's the only medicine that cures all these ailments. It's the only medicine that cures all these ailments. It's the only medicine that cures all these ailments."

WORLD HAPPENINGS BRIEFLY TOLD

The Alberta provincial police will continue to enforce law and order in the province, and their duties will not be taken over by the Royal Canadian Mounted Police.

Sir George Badenhorf, native of Toronto, famous specialist in ear, nose and throat disease was invested a Commander of the Victorian Order by His Majesty, King George, at a Royal Investiture.

Defeat of a government measure should not entail the resignation of the government, unless followed by a vote of want of confidence. This proposal is advocated in a resolution in the Federal House, sponsored by Robert Gardiner, U.F.A. leader.

Contrary to international law, Germany is reported to have shipped large quantities of poison gas to China for use by forces of President Chiang Kai-Shek. Chinese Chamber of Commerce has protested to the German consul-general at Shanghai.

If all members of parliament had their tonsils removed their tempers would be much improved. Miss Agnes MacPhail, only woman member of the House, found it so in her case and urges her fellow members to do likewise.

A total of 430,636 pounds of mail was carried over Canada's 20 air mail routes during 1929, at a cost to the country of \$474,071. Heaviest route was between Narrows Lake and Sioux Lookout, Ont., where 83,406 lbs. were carried.

For the first time since his recovery from his serious illness of a year ago, the King held an investiture in the Throne-Room of Buckingham Palace. More than 100 recipients of honors in the new year's list received the insignia of their orders and their decorations.

Carelessly Addressed Letters

Costs Post Office Department Half Million Dollars Yearly

The Post Office Department incurs an expense every year of about half a million dollars in giving a special directory service to some millions of pieces of mail which are carelessly addressed. This in spite of repeated warnings to the public asking that patrons take care in wrapping and addressing mail. It is now suggested that the Department make it compulsory to place a return address on all letters and parcels. Since in the final analysis the financial burden of the carelessness of some people falls upon the taxpayer it would seem only fair that all be required to abide by a certain standard of carelessness.

Industrial Growth Of Manitoba

Building extensions and industrial growth in Winnipeg and the Province of Manitoba for 1930 hold promise of a record year. Already permits for two buildings total over \$60,000, while there are quite a large number of permits in the \$100,000 class.

BOILS

MINARD'S "KING OF PAIN" LINIMENT

W. N. U. 1929

Retains Lead In Passenger Traffic

Canard and Associated Lines' Atlantic Bookings In 1929 Were 285,784

For the seventh consecutive year the Canard and Associated Lines carried, during 1929, a larger number of passengers across the Atlantic than any other steamship line or group of lines, according to a statement made by Arthur Randless, general passenger manager for Canada of the Canard and Anchor-Donaldson lines.

Statistics of the passenger traffic for last year revealed the fact that Canard and its Associated Lines carried a total of 285,784 passengers on their regular transatlantic sailings.

Of this large number a total of 65,510 passengers were carried by the Canard-Donaldson steamers, and 45,413 on Canard Canadian service liners.

Of the total carried by our lines, the Canard Line accounted for 208,185, and the Anchor Line, 45,311," said Mr. Randless. "Not included in these figures are 5,232 carried on Canard's Havanna service, 11,294 on the Canard's Havanna service for 1929; also, 1,950 on the Anchor Line cruises, and several smaller categories, which raise the grand total of all passengers carried to 285,784. This total incidentally represented an aggregate increase of 17,030 over the 268,754 carried in 1928."

"A survey of the travel prospects in our various departments, first-class, second-class, cabin, tourist third-class and third-class, leads us to the conclusion that if the present rate of booking is maintained through spring and summer, the Canard Line and its Associated Lines will experience a good year," Mr. Randless stated.

Edmonton Spring Show

Children's Calf Feeding Competition

Is Attracted Much Interest

In order to give all children residing in farm homes an opportunity to become conversant with the many special classes put on for them at the Edmonton Spring Show, to be held from April 8 to 12, and particularly the calf feeding competition, given to amateur exhibitors, letters and prize lists were sent to every school north of Red Deer. A number of teachers have written in that the children have been quite interested and excited, and is expected that many of the children adopted with an eye to improving the 1930 Children's Calf Feeding competition will result in a largely increased entry.

It has been felt by the directors for some time that when once a child is successful in feeding a calf, it is to the point where it can win first prize in this competition, it is only fair that some one else should have an opportunity to win this prize the next year, in order that the benefits of the first prize might be distributed a little, and this year all those who have previously won first prizes are barred from again competing. The district prizes offered by the Edmonton Stock Yards have also been divided into three prizes for each district, instead of one, which will also give greater encouragement to the amateur exhibitors in those districts which have not the same high quality of livestock as some of the districts which have been settled for a longer time.

The Reindeer Trek

A. E. Forsild Gives Some Details Of Big Government Undertaking

Referring to the organized reindeer trek from Alaska to the Mackenzie district of the Northwest Territories (to ensure an adequate meat supply to Canada's northern citizens), A. E. Forsild, 6509 of the Department of the Interior, now back from the drive, reports that the herd comprises 2,800 females, 307 bucks and more than 200 steers—the last being required to haul some 50 sleds, laden with tump equipment and to supply the sledges and harness. A steers is hitched to each sled, travelling caravan fashion, with two unharnessed steers in the lead breaking the trail.

B.C. Lumber Industry

The records of the Forestry Department indicate that the cut of poles and piles from the British Columbia forests during 1929 totalled 39,453,489 lineal feet or an increase of 8,000,000 feet over the 1928 output.

Saskatchewan Lumber

Figures relative to the lumber production in Saskatchewan during 1928 reveal that the number of sawmills have increased from 10 to 13 during 1929.

SCOTT'S EMULSION

Ready For Poultry Congress

Eggs To Be Exhibited By Canada Are Now In Cold Storage

Eggs and poultry are already in cold storage for exhibition by the Canadian Poultry Pool at the World's Poultry Congress at the Crystal Palace, London, England, in July of this year. Mrs. John Holmes, president of the Saskatchewan Co-operative Poultry Producers, and vice-president of the Canadian Poultry Pool, stated that Canada's interest in the congress was keen, particularly as production of eggs and poultry last year had slightly exceeded consumption in Canada. This necessitated a foreign market and investigation was proceeding in transit and marketing of the surplus.

At the annual meeting in Edmonton, recently, it was reported that a trial shipment of eggs from British Columbia via the Panama Canal to Britain had been very satisfactory. Five thousand cases of eggs, or 17 car loads, had been sent cold storage and sold in Britain as Canadian eggs with the trade mark C.P.P.—Canadian Poultry Pool.

Asked whether the opening of the Hudson Bay route might not help solve the problem of marketing, Mrs. Holmes stated that advantage had been taken of cheaper water transit in the trial shipment of eggs to Britain via Panama last year, and that probably the Hudson Bay route would prove an alternative for Saskatchewan and Manitoba at least.

Comparing Saskatchewan and British Columbia as egg-producing provinces, Mrs. Holmes declared that the lowest temperature of the former was not such a drawback as dampness here. The assembling system of British Columbia was superior to that of Saskatchewan, Mrs. Holmes remarked. In the former province eggs were brought by motor-truck system to the assembling station in three days. In Saskatchewan the eggs were assembled by rail in about seven days.

Can See Operation On Screen

Invention Being Used In Paris Works Like Periscope

Permitting many doctors and medical students to observe an operation simultaneously, an invention now in use in Paris works like a periscope to enlarge the operation three times and project it on a screen in an adjoining room. In the past only a few persons could be admitted to an operating room. The invention, known as the selscope, is suspended from the operating table, and through a series of prisms, transfers the scene to a screen, enabling each person to see clearly what is taking place. Observers also hear the surgeon's voice explaining the steps.

Customer (entering motor shop): "I should like to see some really good second-hand cars, please."

Dealer—"So should I."

Smothering Spells

Couldn't Walk Far Gassed For Breath

Mrs. T. W. Roth, Kelowna, B.C., writes:—"For over a year I was troubled with smothering spells, and it was impossible for me to walk even a short distance, on account of having to gasp for breath."

Naming Of Creeks

By Old Prospectors

Trappers Also Had Land When British Columbia Waterways Were Christened

Through British Columbia's diversified out-of-doors, this threadbare question is garbed with freshest interest when he ponders on the names given to some of the innumerable streams of the province.

Along the line of the Canadian National Railways there are more than a few Gold, Silver, Copper, Ruby, and Quartz creeks to show that prospectors had a hand in the christening. These and others of the advance guard of settlement named many Salmon and Trout creeks. There are Goat, Kid, Duck, Goose, Sheep (also a Sheppard), Pig, Deer, Grizzly, Silver, Bear, Cougar, Whitegrouse, Eagle, Martin, Hawk, Fish-hawk, Caribou, Wolf and Porcupine creeks. There is even an Octopus creek, and a stream called Greasy Bill. One wonders who this Greasy Bill was and what he looked like. There are White-water, Blackwater, Clearwater, Coldwater, Green and Vermilion creeks, and along the St. Mary's River the creeks on one side were named Matthew, Mark, Luke and John, by a zealous missionary. Later a traveller not quite so devout chanced to pass along the opposite side of the stream and named the creeks flowing into the river along his side. These names were hardly picturesque, especially the one he dubbed Hell-roarin' Creek. Priest and Monk creeks are well known. So are Rum, Whiskey, Soda, Lemon, and Sugar creeks. One finds the Kettle River and Puddingfoot Creek, while away north of the Canadian National line, west of Jasper park, in the Stuart Lake country, are the Frypan mountains. There are Snow and Snowball creeks, Slipper creek, and Hiccup and York creeks. Also Corn and Blubberty creeks. Then there are Knoll, Rook Summit, Pyramid, Sand and Lost Lodge creeks. This last suggests elusive treasure and an old miner's blighted hopes. But there is a Hope creek too. Hagaboo creek seems a good place to stay away from, while Twobit creek suggests small change.

Many of these names were conferred by the questing placer miners of fifty and more years ago and perhaps it is significant of their hopes and disappointments that there is a Sob and A Smile Creek. For after all there must be something in a name.

Value Of Game Preservation

Game Statistics Of Saskatchewan Point To Interesting Conclusion

While tabulation of returns from big game preserves in Saskatchewan for the 1929 shooting season is far from complete, and approximately 20 per cent of the returns have not been received, it has been roughly estimated that 2,500 big game animals were legally killed in the province last year.

It has also been estimated that 90 per cent of all the animals killed were brought down in close proximity to game preserves, 17 of which have been located in the province. If at all accurate, this estimate pays the highest possible tribute to the value of such preserves.

Including the many thousands of duck and other game birds shot last season, it has also been estimated that the value in money of all game shot was not less than \$1,000,000. If that estimate is anywhere near accurate, the value of game protection in Saskatchewan, for no other than a financial standpoint, is realized.

Guarding the Crops

Laboratories Maintained In West For Control Of Insect Pests

Entomological laboratories are maintained in each of the wheat growing provinces of Manitoba, Saskatchewan and Alberta, by the Entomological Branch, Department of Agriculture, at Ottawa, for the carrying on of investigations to determine practical methods for the control of important insect pests.

These laboratories have been established and developed with the necessary equipment and staff as a means of protecting the wheat and other crops against damaging insect enemies.

Good To The Last Drop

An aviator bought a parachute from a new but obliging salesman. "And if you find it doesn't work," said the young man cordially, "just bring it back and we'll be glad to give you another."

New England has never asked for farm relief although it was there that the passing stranger sympathized with the hand who was picking stones in a field. To which the latter replied: "Listen, brother, I ain't as poor as I look; I don't own this place."

SUNDAY SCHOOL LESSON

MARCH 16

PARABLES OF THE KINGDOM

Golden Text: "The kingdom of God is not eating and drinking, but righteousness and peace and joy in the Holy Spirit."—Romans 14:17.

Lesson: Matthew 13:24-32.

Devotional Reading: Proverbs 2:19-26.

Explanations and Comments

The Parable Of The Wheat and the Tares, verses 24-30.—When Mark Twain was a lad, he was sent by his mother to weed a flower-bed. He found more weeds than flowers and came back to ask his mother if instead of weeding the flower-bed he might not "flower the weed-bed." This parable is a warning against the danger of flowering a weed-bed.

The Parable Of The Mustard Seed, verses 31,32.—In this parable Jesus likens the Kingdom of Heaven to a grain of mustard seed which a man took and sowed in his field. This mustard seed was the smallest seed cultivated by the Jews and was popularly regarded as the smallest of all seeds. And sowing the seed so small, mustard sometimes grows to a height of ten or twelve feet, and then the birds and beasts of the field come and lodge in the branches thereof. The parable teaches that the growth of the Kingdom is sure, that for a small beginning great results follow. The husbandman does his part in preparing the ground and sowing the seed, and then he leaves it in the care of the earth, depending upon it together with the action of the sun and air and rain to carry the germinating life through the stages of its growth. So man must trust to a Power that is stronger than man for the extension of the Kingdom of God in the hearts of men depends not upon the agency of man alone but upon the power of God.

"Wonderful Man . . . You had your dreams: That John and Peter, James and Magdalene, Dark Judas, too—should learn to know your God, and have the faith to lead the Kingdom's gleam. In our uncharted realm; and still your hopes are undimmed, though men in darkness grope."—Thomas Curtis Clark

Jails To Spare

Huge Decrease In Crime In Great Britain Is Noted

Britain's criminals are one class who are travelling on the road which leads to gradual extinction. While the criminal "dole," as the prisoners' appropriations might be termed, is decreasing, the government today finds itself embarrassed by a superfluity of prisons and military barracks.

Malden jail, which is to be closed shortly, is the twenty-seventh institution of its kind to disappear since 1914. Since that year—memorable as the outbreak of the wars from the population of the United Kingdom has declined by 70 per cent.

The surplus of military barracks arises partly from reduction of the forces and partly because the scheme of army organization today calls for the concentration of troops in definite training areas, rather than their housing in different parts of the country. It is doubtful if the great Sheffield barracks will ever be occupied again; that is, unless there should arise emergency conditions. Like many similar institutions, the Sheffield barracks were built about the time when industrialism, still a new phase, was coming to its full strength in the north of England. Such barracks, for the most part are suitable for purposes, designed then with the idea of providing refuge in times of civil disturbance.

The suggestion has been made in parliament that London's two principal prisons—Wandsworth and Pentonville—should be razed and housing built for the working class substituted.

Two New Words

"Two new words, 'enplane' and 'deplane' are to be included in the forthcoming edition of the American New Standard Dictionary. The rating of the two words is impressive. It is added, according to the editor of the dictionary, who says that their use in air transport is synonymous to that of 'entrain' and 'detrain' in railway service.

Minerals Necessary For Cattle

A cow puts 14 pounds of minerals into every ton of milk she gives, or 56 in a normal producing year. One ton of alfalfa hay contains 163 pounds of minerals, and one pound of alfalfa contains more calcium than 100 pounds of corn.

The longest elephant tusks of which there is authentic record are 11 feet and 5 inches in length, and the pair weigh 292 pounds. They are now in the possession of the New York Zoological Society.

Lady Passenger: "I am not the mother of this child."

Police Conductor: "Well, I'd never guess you were a grandmother."

Acts Like Magic—A Sweet So Pleasant

Packing in Melbourne

The packing of cars in Melbourne, Australia, is controlled by insurance of a ticket for the sum of 25 cents. A motorist must have his car any place he can find space, handing the ticket to a policeman. The ticket is good for one day only.

DO YOU SUFFER FROM CONSTIPATION?

Countless remedies are advertised for constipation. Many relieve for the moment but they are habit forming and must be continued. Others contain calomel and dangerous mineral drugs, which remain in the system, settle in the joints and cause aches and pains. Some are harsh purgatives which cramp and gripe and leave a depressed after effect. Avoid laxatives which only irritate the intestines and encourage nature's machinery to become lazy. A purely vegetable laxative such as Carter's Little Liver Pills, gently touches the liver, lets it start to flow, the bowels move gently, the intestines are thoroughly cleansed and constipation poisons pass away. The stomach, liver and bowels are now active and the system enjoys a real tonic effect. All druggists 25c and 75c red pkgs.

A Real Economy

New York now pays \$160,000,000 a year to ride in the city's 25,000 taxicabs, reports a writer in World's Work. But huge as that sum may seem, the taxicab is a real economy for the New Yorker of the class which would not own its own car in smaller cities. On account of high rentals, lack of parking space and traffic congestion, it is estimated that the cost of maintaining an automobile and chauffeur in the city is \$5,000 annually.

Heart disease, in 75 per cent. of cases, develops in children before they are ten years of age.

SMP

Covered Roaster

Saves You Money!

An SMP Enameled Covered Roaster saves many dollars every year. No need to pay high prices for the best meat. The SMP Roaster gives cheap cuts of meat the juicy tenderness of expensive ones. CHAPTER IV.—Continued.

"You look elegant as well as prosperous," she added. "Lend me a helping hand, Jim, so I can descend gracefully."

Jim grinned, and stretched out the hand obligingly. "I *cease*," he began, flushing a trifle as Charman, on solid ground again, looked up at him. "To see if you were going to the strawberry festival tonight. If you are, I'll stop for you with the car as I go along."

A disconcerting smile curved the girl's lips as she replied: "That's thoughtful of you, Jimmy, but you needn't bother because I—"

"Neither," she exploded. "Who said it was a bother?"

Canada's Participation

CANADA is taking a prominent part in the Fourth World's Poultry Congress, London, July 22 to 30, 1930.

National Exhibits.

Provincial Exhibits.

Commercial Exhibits.

Live Bird Exhibits.

1,000 birds—the largest exhibit from any country.
500 delegates—the most from any country except Great Britain.

Two

After-Congress Tours

After the Congress—an eleven day tour of the British Isles—the Shakespearean country, North Wales—Ireland, Lakes of Killarney, Dublin, Belfast—Scotland, the Trossachs, Edinburgh—Wales, Lancashire, the English Lakes.

Then a Continental tour—Brussels, Holland, the Hague, Amsterdam, Frankfurt, Munich, Oberammergau (to see the Passion Play), Switzerland, Paris.

Canadian and United States delegates and visitors sailing from Montreal, July 12th, on the "Duchess of York."

chum of mine, Doctor. He used to carry my books to school for me and fight my battles. You ought to be friends."

The young man on the step ladder looked the reverse of friendly at just that moment, but he descended, and reluctantly gripped the hand which the doctor had extended.

"I was only giving Charman a little help," he explained, somewhat breathlessly; and added, a belligerent note creeping into his voice, "this is no sort of work for a girl, it seems to me."

"You're right, Miss Davis will tell you that I told her not to touch it. I expected to go with Doctor Howe this morning, but when I told him of this scheme for an office he gave me the day off. He thought it a great idea, and I'll say I'm in luck! I'll get some old clothes and be back in a jiffy to pitch in."

"Well," began Jim, removing the duster and reaching for his neatly folded coat. "You won't need me now so I'll run along. I—luncheon you see an awful lot of that fellow, Charman?"

Charman was obliged to conceal a smile of triumph at this evidence that Miss Darling was not omnipotent. "I eat three meals a day with him," she answered. "Later on, if I get the school, he'll have his dinners at the hotel."

"It makes me hot—your cooking meals for him," confessed Jim, as he slipped into his coat.

"What nonsense!" laughed Charman. "Can't a body take a burden without making you look like a thunderstorm? Wipe that scowl off, Jim. It's not becoming. You're ever so much nicer when you smile. Say! if you've got time, run in and speak to Grandma, won't you? She gets lonely some 'tting there so long; and why not step in tonight and go along to the festival with us, Jimmy? I'd like to have you, honest injun, cross my throat and hope to die, as we used to say."

This was reward of merit for his offered help; but Jim answered, a sarcastic twist to his lips that was something new: "Seems to me I've heard somewhere that three's a crowd. Thanks, my dear, but I know enough not to butt in where I'm not wanted."

"As far as I'm concerned," began Charman, knowing that down inside he was really hurt, but John Carter's untimely entrance interrupted what was intended for a soothing speech, and with a smothered "Damn," that wasn't really so smothered as it should have been, Jim took his departure.

The doctor gave vent to an expressive whistle as he watched the young man's muscular figure move stately across the gravel driveway.

"Your friend seems not to like me," he ventured ruefully.

"Give him time," smiled Charman. "He's slightly irritated this morning because he's planned to court me to the strawberry festival tonight and you've cut him out!"

"He is, I take it, the man who has recently been enamored of a green hat?"

"The same," admitted Charman, showing a bewitching smile. "But now let's get to work. If you'll take Jim's place on the ladder we can accomplish wonders before I have to start dinner."

Meanwhile Jim Bennett had crossed the strip of lawn and walked in on Grandma, who was watching with interest the struggle of two small boys over a stick of candy, which drama was taking place on the opposite sidewalk.

"There!" she exclaimed, with a nod of welcome. "they've broken it all to bits, and serve 'em right for being pigskin. I don't like that Eldridge boy. He's always picking on the younger ones. Well Jim, you're quite a stranger. Sit down. How happens it you're here?"

"I was only giving Charman a little help," he explained, somewhat breathlessly; and added, a belligerent note creeping into his voice, "this is no sort of work for a girl, it seems to me."

"You're right, Miss Davis will tell you that I told her not to touch it. I expected to go with Doctor Howe this morning, but when I told him of this scheme for an office he gave me the day off. He thought it a great idea, and I'll say I'm in luck! I'll get some old clothes and be back in a jiffy to pitch in."

"Well," began Jim, removing the duster and reaching for his neatly folded coat. "You won't need me now so I'll run along. I—luncheon you see an awful lot of that fellow, Charman?"

Charman was obliged to conceal a smile of triumph at this evidence that Miss Darling was not omnipotent. "I eat three meals a day with him," she answered. "Later on, if I get the school, he'll have his dinners at the hotel."

"It makes me hot—your cooking meals for him," confessed Jim, as he slipped into his coat.

"What nonsense!" laughed Charman. "Can't a body take a burden without making you look like a thunderstorm? Wipe that scowl off, Jim. It's not becoming. You're ever so much nicer when you smile. Say! if you've got time, run in and speak to Grandma, won't you? She gets lonely some 'tting there so long; and why not step in tonight and go along to the festival with us, Jimmy? COLEMAN,

ALBERTA

Legion Discusses Building

(Continued from Page One)
will enrol as many ex-service men as possible, the dues being \$3.60 for the year, including a year's subscription to The Legionary.

It was also decided that a committee of the 192nd Battalion will arrange for a meeting with members of the battalion in other towns and secure a settlement of the trust fund which has been held since 1916, when the battalion went overseas. Coleman's share would be devoted towards the purchase of club headquarters.

P. Smith, secretary of the Memorial committee, stated there was over \$500 on deposit, but no decision had been made as to its use. The Elks had also a sum of \$400 which they were willing to have used for a war memorial. It was suggested that these monies might be used towards the purchase of a suitable headquarters for the Legion, and which could be used as a place where gatherings of a community nature could be accommodated.

These various matters will be fully considered by the appointed committees, and their reports submitted to the membership.

Dr. R. P. Borden presided at the meeting, Major Barnes, vice-president, was appointed secretary of the branch, and all members of the executive and about thirty members were present.

The future appears bright for the Legion in Coleman, and the members are quite enthusiastic in support of the re-organized branch and its proposals to secure headquarters that will be a credit to the Legion and the town.

Personal and Local

Mr. and Mrs. J. R. Haining, of Turner Valley, are visiting with Mr. and Mrs. A. Dewar.

Mr. A. E. Guerd of the Coleman hotel was a Calgary visitor this week.

At the town council meeting held this week, Jas. Ford was appointed assessor.

Alf. Botter, night agent at the C. P. R., spent the week-end visiting at his home at Medicine Hat.

Miss Goodwin of Bellevue has been appointed temporarily to the Miners hospital staff.

Mr. and Mrs. J. S. D'Appolonia are expected to arrive home shortly from a visit to Italy, having left for Canada last week.

Mrs. A. G. Bowling returned on Saturday from several weeks visit with relatives in Edmonton and Calgary.

Remember 'St. Patrick chased the snakes out of 'Oreland? Celebrate on Monday night at the K. P. Hall.

At the Junior hockey team's whist drive last Friday, the prizes were won by R. Jenkins, Wyndham Jones, Mrs. Derbyshire, Mrs. Bell.

J. R. Sibbald, of Edmonton, district manager for Canard Steamship Co. Ltd., was here yesterday calling on the local agent, H. T. Halliwell.

The junior hockey team held a very successful whist drive and dance on Friday evening, which was attended by many of the young people.

A number of lady friends made a surprise visit to Mrs. G. Pattinson on Thursday evening. Half of the invading force trooped through the back door, and half through the front, so that she was completely taken by surprise. They remained for the evening and played cards, the honors going to Mrs. Pattinson and Mrs. Naylor.

G. Pattinson returned on Sunday from a month's holiday at Victoria and Vancouver. Business conditions he states are practically the same in the coast cities as in the interior, and the coal industry at Nanaimo, V.I., is very quiet. He was able to indulge in his favorite pastime of golf while at Victoria, and during his stay there the annual tournament was played, in which annually prominent international players take part.
